# ABOUT CROSSBILL

**F**

## FRESH

Our Gins are a celebration of Scottish nature, made with wild, fresh botanicals, harvested by hand then slowly macerated in Glasgow before being distilled.

**S**

## SEASONAL

From the abundance of summer fruits to the coldest and most bleak wintertime treasures, our gins showcase that incredible flavours can be found in Scotland all around the year.

**S**

## SCOTTISH

Each bottle is a testament to our passion for creating an exceptional gin and showcasing the beauty of Scotland's natural resources.

## JUNIPER

We have returned to tradition, harvesting Scottish juniper and working with land owners and conservation organisations to maintain a sustainable source of juniper for future generations.

Crossbill Distilling is an established distiller with experience dating back to 2006. Gin production began in 2012 in Aviemore in the Scottish Highlands.

In 2017 we relocated to the legendary Barras in Glasgow's East End, where we distil our range of award-winning, Handcrafted Scottish Gins.
